Manufacturing and Repair Expertise for Electric Shovel Transmissions and Parts

Electric Shovel Crowd Transmission (before)

Repaired and Refurbished Transmission (after)

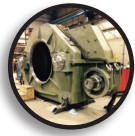

Standard Machine® has operated one of the best-equipped open gearing and mechanical power transmission facilities in North America, and has effectively served the mining industry for over 50 years. Now working with Philadelphia Gear®, the combined talents of both facilities have been serving the world's industrial markets for over 175 years.

We Stand by Our Workmanship

Operating in some of the harshest environments in the world, our customers cannot afford costly downtime. So, Standard Machine and Philadelphia Gear have worked together to offer one of the **toughest manufacturer's warranties in mining industry—five years on new electric shovel transmissions and three-years on repairs.** Have peace of mind by choosing a company with the best protection and a proven track record of superior product reliability worldwide.

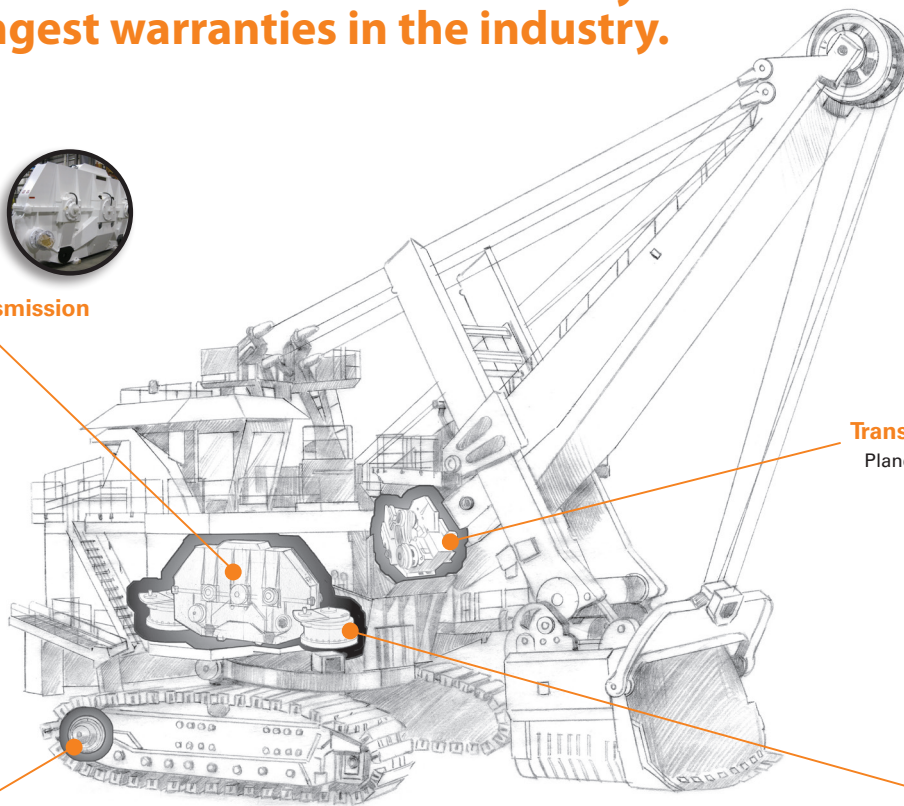

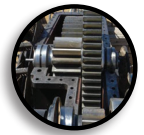

Superior transmission services backed by one of the strongest warranties in the industry.
